Patient's Name (Male): _____ DOB: _____

Patient's Name (Female): _____ DOB: _____

Patient's Address: _____ City: _____ Zip: _____

Patient's Phone: _____ Email: _____

Insurance Provider: _____

Referring Physician (please print): _____ Fax # (required): _____

Andrology Services:

- ☐ Semen Analysis
- ☐ Urine Evaluation of Retrograde Ejaculation
- ☐ Semen Cryopreservation
- ☐ Sperm Prep (for IUI by referring provider)

Diagnosis: _____

Instructions for Semen Analysis or Sperm Prep Scheduling:

- 1. All specimens that arrive at Carolinas Fertility Institute must have an appointment.**
2. All referral specimens must be accompanied by your physician's prescription. Orders can be faxed to our office or brought with you the day of your appointment. Test results will be sent to your referring provider via fax within 5 business days.

General Collection Guidelines:

1. Proper picture identification is required for all patients providing a semen specimen.
2. For best results, please maintain a window of abstinence for at least 2 days, but no more than 5 days.
3. The semen specimen may be collected at home or in the clinic collection room. If the specimen is collected at home, it must arrive at the laboratory within one hour of collection. Specimens should be collected into a sterile container with a screw-on lid.
4. The sample should be kept between room and body temperature (70 – 98.6°F).
